

Shelf Life of Filtering Facepiece Respirators

NIOSH Approved Filtering Facepiece Respirator Models

The table below provides the list of NIOSH approved filtering facepiece respirator models. Each model has storage conditions and shelf life information communicated in the User Instructions and packaging in the form of symbols, printed use by dates, etc. Refer to the User Instructions for an explanation of the symbols used.

Model	Shelf Life from Date of Manufacture
8110S	5 years
8200	5 years
8210	5 years
8210V	5 years
8212	3 years
8214	3 years
8233	5 years
8246	3 years
8247	3 years
8271	5 years
8293	5 years
8511	5 years
8515	3 years
8576	3 years
8577	3 years
9105, 9105S	5 years
9205+	5 years
9210+	5 years
9211+	5 years
1804, 1804S	5 years
1860, 1860S	5 years
1870+	5 years

 **IMPORTANT**

OSHA requires that all respirators be stored to protect them from damage, contamination, dust, sunlight, extreme temperatures, excessive moisture, and damaging chemicals, and that they be stored to prevent deformation of the facepiece and exhalation valve. Always follow the product's User Instructions, including that respirators should always be inspected prior to use and discarded if damage to any component is observed.
