

3M™ Finesse-it™ Polish – 8 oz Bottles

Bring Out Your Best

Good things come in small packages

We're making it easier than ever for you to make high-quality repairs of minor clearcoat defects. 3M™ Finesse-it™ Polishes are now available in 8 oz bottles – because bigger isn't always better.

- No more need for operators to find and fill bottles
- Order just the right amount for testing the polish
- Bottles individually labeled with required safety information

Part of the 3M™ Trizact™ Finesse-it™ Paint Defect Repair System

Designed for showroom quality. Packaged for your convenience.

3M™ Finesse-it™ Polish is part of a line of compounds designed for repairing surface defects on automotive OEM, marine, and aerospace coatings. These polishes form part of a 3M recommended buffing system for removing fine sanding scratches and swirl marks from clear coats, lacquered wood, solid surfaces, gelcoat, powder coat, industrial paint, acrylic, and glass.

Finish results are dependent on the combination of coating type, polish, and tools used. 3M recommends use with a rotary buffer and wool buffing pads or random orbital buffers and foam buff pads.

Part Number	3M ID#	UPC#	Description	Cut	Finish
28791	60-4402-4170-5	051141-28791-1	3M™ Finesse-it™ Polish - Compounding Material, 8 oz (4 per case)	1 Most aggressive	7 Coarsest finish
